

E ONE

Eidolon Gobo Projector E-ONE featuring a rounded body with smooth lines for a simple, elegant dreamy planet. Equipped with a 400W high-luminosity LED light source delivering 12,000lx at 5m, it offers interchangeable manual zoom and focus lenses (12 ° , 19 ° , 30 ° , 50 ° , 70 °) for both long-distance clarity and wide-area coverage. The modular design enables quick on-site swaps between gobo, ripple, and framing effects. With an IP66 rating, it handles harsh climates effortlessly. Combining a "modular" design with "dynamic expansion + smart control" innovation, the E-ONE sets a benchmark in outdoor projection, offering a versatile, artistic, and high-performance solution for theme parks, attractions, landmarks, commercial plazas, and other architectural facades.
